PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience building scalable web and mobile applications using React, Flutter, Node.js, Laravel, and MySQL**.** Experienced in designing and deploying fintech, marketplace, and service-based platforms with secure backend architecture and optimized performance. I possess strong expertise in API development, server deployment (NGINX, PM2), and cross-platform mobile development. I also actively leverage AI-assisted development tools (including AI code copilots and workflow automation systems) to accelerate development cycles, improve code quality, and enhance system architecture design.

TECHNICAL SKILLS

- **Frontend & Mobile:** React.js, Flutter (Dart), HTML5, CSS3 Responsive & Cross-Platform Development
- **Backend:** Node.js (Express), Laravel (PHP), RESTful API Development, Authentication (JWT), Payment & Third-Party API Integrations
- **Database:** MySQL, Database Design & Optimization
- **DevOps & Deployment:** Linux VPS Deployment, NGINX, PM2, Server Configuration & Maintenance
- AI-powered coding workflows (Cursor & AI copilots), Development automation, Code optimization using AI tools

PROFESSIONAL EXPERIENCE

CribTech Afrik Ltd – Lagos Nov., 2025 - Till Date
Full-Stack Developer (Remote)

- Designed and developed CribEasy landing page with performance-focused architecture.
- Implemented responsive UI and SEO optimization.
- Handled deployment and server configuration.

Passpro Africa, Lagos **Nov.,** 2024 – Oct., 2025
Full-Stack Developer (Remote)

- Developed an event ticketing web application using React (frontend) and Node.js (backend).
- Designed secure ticket purchase and verification workflows.
- Built RESTful APIs and integrated MySQL database architecture.
- Developed admin dashboard for event management and user monitoring.
- Implemented authentication and transaction-ready infrastructure.

- Built and optimized marketing landing pages.

TechyX360 Technologies Ltd – Lagos **Nov.,** 2023 – Jan., 2025
Full-Stack Developer (Remote) – Contrac

- Developed Billows, a fintech mobile application built with Flutter (frontend) and Node.js (backend).
- Designed secure transaction workflows and backend API architecture.
- Built admin management system and financial monitoring tools.
- Structured MySQL database for scalable transaction handling.
- Managed server deployment and performance optimization on VPS infrastructure.

SELECTED PROJECTS

GoQuick – On-Demand Service Application (Personal Project) **2026**

Tech Stack: Flutter, Laravel, MySQL

- Built cross-platform mobile application using Flutter.
- Developed backend APIs with Laravel.
- Designed real-time request and service management system.
- Built complete admin dashboard and business landing page.
- Deployed application on VPS with NGINX configuration.

AShopper – Marketplace Application

Tech Stack: Flutter, Node.js, MySQL

- Developed marketplace mobile application with product management features.
- Built backend API services and admin dashboard.
- Designed scalable database architecture for product and order management.

EDUCATION

Higher National Diploma (HND), Computer Science
Moshood Abiola Polytechnic, Nigeria 2019 – 2022

Ordinary National Diploma (OND), Computer Science
Moshood Abiola Polytechnic, Nigeria 2016 – 2018
